E-mail: **bushinimuralidharan@gmail.com**
Portfolio: https://bushini-m.netlify.app

Objective:

A motivated Software Engineer with a strong foundation in Java, Angular, Python, and web technologies. Proven experience in developing and supporting real-time IoT, AI, and full-stack applications through academic projects and professional exposure. Skilled in software development, problem solving, and application design. Seeking a role to leverage technical expertise and contribute to building scalable, high-quality software solutions.

Academic Credentials:

- ✓ Bachelor of Engineering in Information Technology -8.31(CGPA), Hindusthan Institute of Technology, Affiliated to Anna University in year 2025, Coimbatore, India.
- ✓ HSC-80.66, Municipal Girls Hr.Sec School in year 2021, Tiruvannamalai, Tamilnadu.
- ✓ SSLC-74.8, Bhagavan Hr.Sec School in year 2019, Tiruvannamalai, Tamilnadu.

Skills:

- Programming Languages: Python, Java
- Web Technologies: HTML5, CSS3, JavaScript, TypeScript, Angular, JSP
- Database Management: MySQL, PostgreSQL
- Development Tools & IDEs: Eclipse, Visual Studio Code, Postman, Maven
- Frameworks & APIs: Spring Boot, JDBC, REST APIs
- Version Control: Git, GitHub

Experience:

Paragon Dynamics Info System Private Limited
Designation –Junior Software Engineer
May 2025 - Present

Key Proficiencies:

A software development company focusing on innovative IT solutions

- **Java Full Stack Developer** with experience in **Shipping Line-based projects**, including **CORDELIA, SMART MARINE**, and other related applications.
- Proficient in **Java, JavaScript, AngularJS, JSP, and PostgreSQL**, with expertise in developing and maintaining web applications.
- Strong background in **application support**, **database management**, and writing optimized **SQL queries, stored procedures, functions, and packages**.
- Hands-on experience with **Eclipse IDE** and other development tools for building scalable and efficient software solutions.
- Proven ability to work on **multi-user authentication systems**, deployment alerts, and dynamic language switching in enterprise applications.
- Skilled in integrating **front-end and back-end technologies** to deliver seamless user experiences.

Achievements:

- ❖ Participated in Paper Presentation and won 2nd Place in a college cultural event.

Job Profile:

- Experienced Java Full Stack Developer skilled in designing, developing, and deploying scalable web applications using Java, Spring Boot, AngularJS, JSP, and PostgreSQL.
- Proficient in building RESTful APIs, optimizing SQL performance, and delivering secure, user-friendly solutions while continuously adopting new technologies and agile practices.

Projects

Blossom Boutique: Full-Stack E-Commerce Application

- **Technologies Used:** Angular, TypeScript, Spring Boot, PostgreSQL, REST APIs.
- Developed a customer storefront with catalogue, search, bag, wishlist and checkout, and an admin console to manage orders, returns, messages and store settings.
- Implemented a UPI payment flow with admin verification and order tracking, plus automated customer and shop e-mails for order events.

IoT Enhanced Safety System for Gas Leak Prevention and Monitoring

- **Technologies Used:** IoT, MQTT, Cloud for Data Visualization.
- Developed an IoT-based safety system to detect and prevent gas leaks through continuous real-time monitoring.
- Implemented MQTT protocol for efficient data communication between sensors and cloud platforms.
- Integrated cloud-based dashboards for data visualization and remote monitoring of gas levels.
- Designed automated alert and shut-off mechanisms to enhance safety and enable quick response during gas leak incidents.

Personal Details:

Gender: Female

Nationality: Indian

Languages Known: English, Tamil

Declaration:

I hereby declare that the details and information provided above are true and correct to the best of my knowledge and belief.

Yours Sincerely,

BUSHINI M
